# APRICOT RED TECHNIQUE

Add soft apricot tones to hair with a new color technique using One 'n Only™ Argan Oil Permanent Hair Color.

## Formula

¼ oz. 8RG Light Tangerine Blonde

¾ oz. 8G Light Golden Blonde

2 oz. One 'n Only™ Argan Oil 20 Volume Cream Developer

## Virgin Application (for hair that has not been colored)

- Section the hair into 4 equal sections, from ear to ear and from front to back.
- Take ½-inch sections and apply color starting ½ inch away from the scalp.
- Apply the color to the shaft of the hair. If ends are porous, don't pull color through.
- Continue to color until all four sections are completed.
- Process for 15 minutes.
- Apply remaining color at the scalp area and process for an additional 30 minutes.
- For gray coverage, process for a total of 45 minutes.
- Rinse, shampoo and condition using One 'n Only™ Argan Oil Moisture Repair Shampoo and Conditioner.

## Retouch Application

- Section the hair into 4 equal sections, from ear to ear and from front to back.
- Apply color to the new growth.
- Process 30 minutes. For gray coverage, process 45 minutes.
- To refresh previously colored hair, apply the remaining color through the ends and process up to 5 minutes.
- Rinse, shampoo and condition using One 'n Only™ Argan Oil Moisture Repair Shampoo and Conditioner.
