COCONUT

INFUSED COLOR

Our Coconut Infused Hair Color technique is inspired by the rich brown outer shell and the creamy white center of a coconut.

Achieve your desired level of lift using the One 'n Only™ Argan Oil Powder Lightener to brighten up your current look! This is a fast-acting, dust-free lightener that can be used for all off-scalp lightening. This lightener is mixed with One 'n Only™ Argan Oil Cream Developer 10, 20, 30, or 40 volume to control the lifting action, while providing superior condition and shine. This lightener works well with foils or highlighting caps.

Add selective highlights that are fun and exciting to help you create a new favorite look. Use this application to add beautiful blonde pieces around the hair infused with brown.

Coconut Highlights

Begin this technique by using two different formulas:

Formula 1

Mix:

1 level scoop of One 'n Only™ Argan Oil Powder Lightener into a nonmetallic bowl

2 oz. One 'n Only™ Argan Oil Cream Developer (10, 20, 30 or 40 volume)

Formula 2

Mix:

1 oz. 6N One 'n Only™ Argan Oil Permanent hair color

2 oz. One 'n Only™ Argan Oil Cream Developer 20 volume

Technique

- Begin application by sectioning the hair from temple to temple around the head.
- Begin by taking ½-inch pieces of hair and applying the lightener mixture to these pieces, keeping it off-scalp. Wrap in foil to separate.
- Take a 1-inch section in between and move to the next piece to isolate in foil. Continue around the head until the entire area is complete.
- Apply the 6N formula all over the head, making sure the foils stay isolated.
- Process for up to 30 minutes at room temperature.
- Check foils after 15 minutes, until desired lift is achieved.
- Once desired lift is achieved, pull each foil out of the hair while rinsing.

Try the One 'n Only™ Coconut with Argan Oil Shampoo and Conditioner!

For added conditioning, first use the One 'n Only™ Coconut with Argan Oil Shampoo followed by our ultra-hydrating One 'n Only™ Coconut with Argan Oil Conditioner. Leave the conditioner on for at least 10 minutes for best results. After styling, apply the One 'n Only™ Coconut with Argan Oil, Oil Treatment to the mid-shaft and ends of your hair for added shine.
